

## SPONSORSHIP Opportunities

# DENVER

Alternative Asset Events has formulated a unique, powerful, and proven approach to business networking.

Our exclusive network brings together global entrepreneurs, investors—even Heads of State—who share similar backgrounds, lifestyles and interests and provide its members an advanced networking platform with exclusive personalized services.

Our focus is to provide networking opportunities for Companies, Asset Managers, Hedge Fund Managers, Family Offices and Institutional Investors. Given the limited number of service providers that will be in attendance at each event, this “invitation-only”, curated gathering of investors with select service providers will better highlight the services of our sponsors, while simultaneously allowing for captive networking and product/service promotion.
